PROFESSIONAL SUMMARY

Full-Stack Developer with 4+ years building scalable web applications across the MERN stack, Next.js, and WordPress. Experienced leading small dev teams from requirements through deployment, using data analytics (Google Analytics, Tableau) to inform decisions. Currently building hands-on experience in Retrieval-Augmented Generation architectures, large language model API deployment (OpenAI/Anthropic), and practical ML applications for sophisticated, data-driven web solutions..

TECHNICAL SKILLS

- **Languages & Frameworks:** JavaScript (ES6+), TypeScript, Python, HTML5, CSS3, React.js, Next.js, Node.js, Express, WordPress
- **Databases & Cloud:** MongoDB, PostgreSQL, SQL, AWS, Firebase
- **AI / ML:** OpenAI API, LangChain, Vector Databases (Pinecone/pgvector), Prisma ORM, RESTful APIs, Machine Learning
- **Tools & Analytics:** Git, GitHub, CI/CD, Google Analytics, Tableau, Excel | **Professional:** Agile, Risk Analysis, Team Leadership, UI/UX Principles

PROFESSIONAL EXPERIENCE

Project Manager & Developer | The NovusTech Jan 2022 – Present (FreeLance)

- Lead a team of 3-5 developers building scalable SaaS applications (MERN/Next.js, WordPress); shipped 10+ production releases.
- Cut delivery timelines by 25% via Agile sprints and enforced QA standards; managed risk logs across 10+ engagements with zero missed milestones.

Front-End Developer | Inseyab Consulting & Information Solutions LLC Jun 2024 – Sep 2024

- Translated sophisticated organizational data structures, behavioral user trends, and predictive model results into front-end interfaces; applied ML-driven insights to redesign interactive analytics dashboards and predictive reporting modules, improving user engagement by 30%.

Consultant | RemHive Private Limited Jan 2022 – Aug 2022 (part-time)

- Resolved 40+ critical bugs/usability issues via Google Analytics & heat-map analysis, improving site efficiency by 35%; built Tableau/Excel reports driving data-backed user journey enhancements and funnel conversions.

Front-End Developer | Walzix Digitals Private Limited Jan 2021 – Jun 2022

- Built 15+ custom WordPress sites for e-commerce, commercial retail, and corporate clients; contributed to MERN projects integrating RESTful APIs.

KEY PROJECTS

- **Junivoy (JavaScript)** — Full-stack web application for interactive platform management; Designed and created core architectural design and chose a modular component setup to accelerate UI rendering and state sync across client views.
In active development
Demo: www.junivoy.com
- **ConstructHub Management Platform (TypeScript)** — Comprehensive construction tracking platform integrating computer vision models for automated site progress monitoring and intelligent material recommendation algorithms.
Demo: <https://construct-hub-management-platform.vercel.app/>
- **Alfarhan Academy (Next.js)** — Dynamic educational learning management platform featuring real-time course delivery, user dashboard management, and integrated REST/GraphQL APIs for seamless data retrieval.
Demo: alfarhanacademy.com

EDUCATION

Bachelor of Science in Computer Science | Iqra University | Expected: Aug 2026

- **Final Year Project: Web-based construction management platform leveraging computer vision for site progress detection and AI-driven material allocation.**

CERTIFICATIONS

- **National Skills Competency Test (NSCT)** — Information Technology / Computer Science Assessment (Passed, 2026)
